DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 1/11/06. Examiner further acknowledges the corrections/clarifications made to address the issues of the first action.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101, which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-45 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-47 of prior U.S. Patent No. 6,939,900. This is a double patenting rejection.

Response to Arguments

Applicant's arguments, filed 1/11/06, with respect to the restricted claims have been fully considered and are persuasive. The restriction of 12/9/05 has been withdrawn. An action on the merits is found herein.

The single difference between applicant's invention and Patent 6, 939,900 is the specific language: "forfeiting of a third part of the at least four wagering parts to a house". In gaming forfeited wagers (as opposed to withdrawn wagers) are amounts that are redeemed as a result of a penalized action. Such inherently go the house or establishment as a payment or fine for said action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
